Hello Ozark Area: The laptop is up and running! What a great help it is! I received an email with the CAR pros and

cons from Brian C this morning and I forwarded that to everyone on the email list. If you did not receive it and would like to please see me on break and I'll get your email added and get that information to you today. ILS – Shelie V

Website Coordinator:

Good Afternoon Area, My name is Matt, I am an addict serving as your website coordinator. I have been keeping our site updated with the current meeting schedules, motions, minutes, and events. This past week I reached out to the Missouri Region website coordinator to try to schedule a day when I can drive up to meet with him to get help with installing the new meeting schedule plugin. From what I understand, this will connect our area's meeting schedule with the region and world's sites as well as the meeting finder app in order to assure everyone has current information. I will keep you all updated as I learn more. As always, I ask that if you are planning an event or anything for which you produce a flyer to please email or message me a digital copy. This will ensure I am able to post a high quality copy on the site's calendar. Thank you to those who sent me flyers last month. Lastly, the area's newsletter is currently available on our site by clicking on newsletter on the toolbar and I will continue to post the latest newsletters as they become available. Thank you all for your support and allowing me to be of service.
